TERMS OF SUBSCRIPTION
One year.....\$12.00 Three months.....3.50
Nine months.....9.00 One month.....1.25
Six months.....6.75 One week......25
Subscriptions by mail must be paid for in advance.

TEN DOLLARS REWARD
A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from premises of subscribers' office.

Entered at the Postoffice in Tonopah as second class matter.

EDITORIAL COMMENT.

GOOD TIMES COMING.

The news dispatches of the past few days and the trade review reports for the week are of a most encouraging character. Times are getting better, industrials are picking up and men are returning to work. For the first time in a great length of time, labor and capital seem to be at peace, for there are no records of strikes in the press dispatches. On the other hand, the laborer is looking forward to a summer of plenty. Railway companies are putting their rolling stock and equipment in shape to handle the large crops that are promised. The iron mills are running on full time on orders placed with them in the past thirty days. Capital is coming out of the strong boxes and safe deposits and is ready to enter the channels of commerce.

By the time the national conventions have selected their standard-bearers, business will be nearly at flood tide. The country will need more money and the mines will be pushed to furnish the necessary medium of exchange.

Nevada will again be in the center of the stage. Her mineral storehouses will yield an abundance of the precious metal. New districts will be opened and old ones revived, and the production of minerals will in all likelihood be a record-breaking one.

So, cheer up, for good times are nearly here, and when they do come they will come with a rush.

SIBERIA CLAIMS ARE FOUND RICH

SEATTLE, Wash., June 5.—The richness of the claims staked out last year in the Anadir district in Siberia is proved by the first spring clean-ups, according to a cablegram received by John Hagan. The message is meager as to details, for it was sent from the mines by dog team to Irkutsk, thence wired to St. Petersburg and cabled to Seattle across the Atlantic.

Claims on Slate creek, which empties into Nadeau creek near the original gold discoveries, are showing profitable returns, although the miners are not yet down to the main body of the pay. On the Olsen claims on Slate creek, near Pete Nadeau's holdings, the largest nugget taken out assayed \$32.75, and a number of nuggets weighing almost as much were panned out. The indications are that when the claims are fully developed and the main body of the pay streak is found, the district will be found as rich as that on the American side of Behring Sea.

Fifty prospecting firms are working in the country under contracts with the Southeastern Siberia Company, which holds the concession. All dust, under the terms of the grant, must be sold to the Russian government, the Southeastern Siberian Com-

pany and the government collecting royalties.

MONTANA IS WORTHLESS

CHICAGO, May 29.—The Tribune today says: It became known yesterday that the Amador Mining and Development Company of Montana, a \$5,000,000 corporation with headquarters at Chicago, had come to an end. Letters that were mailed today will inform 1400 stockholders that the copper and gold mine in which they have sunk \$650,000, is worthless.

The majority of stock was owned by residents of Chicago. There also are a large number of stockholders in Pittsburg, where the company had a branch office, and in Boston. D. E. Mackinnon, secretary and general manager, organized the company and boomed the stock sales for five years. A year ago he departed to Boston, where he opened a branch office, and since that time he has spent only one day in Chicago.

Inquiries made by the stockholders committee resulted in information that Mackinnon had left Boston for some place in Maine.

STRIKES AND DEALS MADE AT FLORENCE

BOYD BASIN CAMP IS MAKING GOOD ALL ALONG THE LINE.

On the Moon Anchor No. 3 a vein of ore was reached last evening that experts pronounce will assay 1200 ounces in silver. It has been noticed from the earliest days of this district that this particular locality was vastly different in formation and appearance to that of any other. The unusual character of this strike is causing quite a ripple of excitement. On the other hand, free gold ore strikes are of daily occurrence and many are of a notable distinction. In other words, every shift's work demonstrates more strongly the great mineral wealth of the now famous Florence mining district.

One of the principal mining deals in the history of the camp took place yesterday. A. S. Travers of New York, A. O. Howard and G. G. Howard of Florence purchased the Snow Bank group, which adjoins the famous Rainstorm mine. Chas. Zeland and William Cahill were the principal owners of the Snow Bank claim. Though the consideration is not at present known, it is generally believed to be well up in five figures. Preparations are now under way to put a force of men to work within thirty days.

This morning another notable strike was made in the Rainstorm mine. The leasers opened up a body of ore about seven feet in width, assaying fully \$125 to the ton.

The LaMar property, has been working in \$200 ore for two days.

S. H. Voltaire has opened up twenty-eight inches of ore that shows wonderful values, much of the ore reaching the \$500 mark.

Tom Hicks on his Alder Creek claim yesterday reduced a 30-pound rock into one and one-eighth ounces of gold.

Progress and prosperity seem to be going hand in hand, while the Florence immigration shows no abatement, and general confidence seems stronger than ever.

Jean Churchill brought in from the Goldbanks claim a sample of rock that weighed eighteen ounces, that was reduced into \$32.70 worth of gold. He has thirty-four inches of ore that averages \$49.19 in free gold.

Dixon and Hampel now have a 41-inch vein that goes \$26.93 on an average in free gold. They are now planning for the erection of a triple discharge three-stamp mill.

Dunn and Dempsey are now erecting an arrastra on their Big Creek property. They are now on thirty inches of ore assaying \$82.16 in free gold.

The Rainstorm leasers are now on a larger and truer vein than ever.

It is hard indeed to foretell what the summer will bring forth when such herculean activity is on.—Humboldt Star.

MANHATTAN SHIPS IN GOLD BRICKS

Manhattan is again to the front. Hardly a day passes but what the camp furnishes Uncle Sam an opportunity of conveying to the mine some of the yellow metal that goes to make coin of the realm. Four gold bricks, the product of the Wolf mill, to the value of \$17,000, from the Briggs-Evans lease on Union No. 9, Dexter Mining Company ground, was received in this city yesterday and will be shipped to the Carson mint.

STRIKERS KILLED BY OFFICERS.
VIGNEUX, France, June 5.—Gendarmes, while trying to arrest a striker this afternoon, were surrounded by a mob of 200 workmen, and, believing themselves in danger, the gendarmes used their weapons, killing two workmen and wounding six.

SELLS BONDS FOR FORTY MILLIONS

NEW YORK, June 5.—An announcement that the Union Pacific has sold to a syndicate of American and European bankers, \$40,000,000 of the \$100,000,000 of first mortgage bonds authorized last month is expected to be made at a meeting of the directors of the company tomorrow. It is understood that the new financing has been completed, and awaits only the approval of the full board. The price at which the bonds were taken by the banking syndicate is

variously estimated at from 93 to 94.

The Rothschilds will not participate in the flotation of Union Pacific bonds, for the marketing of which arrangements have been in progress since the Rothschilds, Kuhn, Loeb & Co., and Baring Bros. & Co., sold \$40,000,000 of Pennsylvania bonds.

As in the case of the Pennsylvania, however, the two London houses will co-operate with Kuhn, Loeb & Co., in the sale of the bonds, and it is expected that half of the bonds will be placed abroad. Baring Brothers will take an interest in the flotation similar to their participation in the

Harriman denied that the failure of the Rothschilds to participate was connected in any way with the Illinois Central contest.

"I am very much pleased with the financing," Harriman added, "and consider the syndicate quite as strong as any that could be formed."
